CHI Health

2027 Basic Electronic Fetal Monitoring

August 10
8:00-4:00
CUMC-Bergan
Sim Lab-4th Floor

Purpose:
To prepare obstetrical nurses to interpret fetal monitoring tracings using NICHD terminology and communicate to the provider such information.

Objectives:

1. Identify the monitoring equipment used in both fetal heart rate and rate and uterine contraction monitoring.
2. Review the physiological mechanisms impacting the fetal heart rate, uterine activity and fetal oxygenation.
3. Define fetal heart rate patterns, methods of interpretation and interventions.
4. Discuss advantages and limitations of each methods used for fetal heart rate and uterine contraction monitoring.
5. Participate in critical thinking exercises that utilize written and verbal communication skills and includes legal ramifications.
