

# CHI Health Schuyler

## Community Benefit Report FY2022

I am exceptionally proud of the growth of services this past year at the Schuyler campus. Our staff proudly live our mission to serve every day. They have risen to the challenge and substantially increased our inpatient census through our transitional care program during challenging times. Our staff are generous and compassionate professionals who bring out the best in our patients and encourage patients towards wellness and a better tomorrow. Dedication to provide services beyond the doors of our hospital and clinics is key in our communities' health.

## Community Benefit Snapshot\*\*

### Behavioral Health

Convened **over 35 community stakeholders** and worked collaboratively to coordinate mental health services. The Coalition discussed gaps and potential solutions and combined available resources, while helping eliminate mental health stigma.

### Food Access

Distributed **\$4,500** in farmers market vouchers throughout the community to provide healthy food to families. Additionally, received a grant to expand access to healthy foods for low-income families with children and support enrollment in the Women, Infants and Children (WIC) nutrition voucher program.

### Access to Care

Through the Vaccine Confidence Grant, the team promoted all vaccinations at events throughout the community and, through the Vaccines for Children program, administered **1,050 vaccines**.
