

Community Benefit Report FY2021

I am most proud of our staff and providers for stretching themselves to provide the care our patients and system needs. Even with external and internal pressures, we emphasized care with the kindness St. Mary's is known for. Given the current challenges we face in health care, we will continue exploring new avenues and models of care to expand our capabilities. We will also focus on staff and provider wellbeing.

Community Benefit Snapshot**

Care Coordination

Supported the launch of the Community Response program which served **30 families** in need during its first year. Most common resources requested were utilities, housing and financial assistance.

Maternal & Child Health

Provided **174 home visits** and placed **72 referrals** for childcare, financial and nutrition assistance, etc., through Growing Great Kids, in partnership with Southeast District Health Department.

COVID-19 Response

Collected and processed **307 COVID-19 tests**, administered **5,710** vaccine doses and provided **93** monoclonal antibody infusions to treat patients with COVID-19.

Mental Health

Launched school-based mental health program to provide counseling services for students, facilitate peer groups and provide training to school staff on how to effectively manage student behaviors.
