

CHI Health St. Elizabeth CHI Health Nebraska Heart

Community Benefit Report FY2022

Even in a most difficult year, our organization prioritized the needs of our community and patients. One of the most significant accomplishments was a dramatic increase in patient satisfaction scores. The team came together during the pandemic to provide the best possible care while supporting each other in a most caring way – resulting in a positive experience for our patients. Our teams will continue to center the care of patients to ensure we remain the hospitals of choice.
