

# CHI Health Plainview

## Community Benefit Report FY2023

I am extremely grateful for and proud of the Plainview staff. They have risen to many challenges this year during a leadership transition. They achieved 100% participation on the employee engagement survey and continued to improve scores. The team has also worked on having a community presence in Plainview by volunteering at events. Lastly, the team has been very focused on working with patient engagement best practices and increasing services for our community.
