

CHI Health Creighton University Medical Center-Bergan Mercy

Former PGY1 Pharmacy Resident Research Projects 2016-2021

Year	Resident Name	Project Title
2020-2021	Adam Bassing	Impact of Over-Resuscitation in Septic Patients Presenting to the Emergency Department in an Academic Medical Center
2020-2021	Jessel Dela Cruz	Evaluation of Thromboembolic Events and Anticoagulant Dosing Strategies in COVID-19 Patients: A Retrospective Analysis
2020-2021	Taylor Lenz	Impact of Increased Caffeine Dose on Ventilation Days in Preterm Neonates
2020-2021	Emily Oliver	Analysis of the Neonatal Early-Onset Sepsis Calculator and its Impact on Antibiotic Use at an Academic Medical Center
2020-2021	Natalie Tiefenthaler	Retrospective Analysis of Pharmacy-Led Medication Reconciliations at Transitions of Care and its Impact on Clinical Outcomes
2020-2021	Casie Walters	Retrospective Evaluation of Phenobarbital Compared to Standard Benzodiazepine Therapy for Alcohol Withdrawal Patients in the Intensive Care Unit at an Academic Medical Center
2019-2020	Sarah Ermer	Retrospective Analysis of the Impact of Enhanced Recovery After Surgery Protocol on Postoperative Opioid Consumption
2019-2020	Daniel Hannig	Impact of an Emergency Department Pharmacist on Time to Appropriate Antimicrobial Therapy for Sepsis Patients in an Academic Medical Center
2019-2020	Xavier Hill	Retrospective Evaluation of the Addition of Azithromycin for Patients Undergoing Cesarean Delivery
2019-2020	Marina Kaminsky	Evaluation of the Effects of Etomidate Versus Standard Of Care Sedation For Induction With Mechanical Ventilation in Patients With Sepsis: A Retrospective Analysis
2019-2020	Sam Katzman	Outcomes in Patients Undergoing Cardiac Surgery: Impact of a Prophylactic Amiodarone Protocol
2019-2020	Braxton Wilcox	Concomitant Use of a Direct-Acting Oral Anticoagulant and a Selective Serotonin Reuptake Inhibitor: Bleeding Characteristics
2018-2019	Athena Aus	Retrospective Analysis of Pharmacist Impact on Advanced Cardiovascular Life Support Guideline Adherence and Outcomes During In-hospital Cardiac Arrest
2018-2019	Eric Bierle	Ipratropium/Albuterol Dosing Frequencies in Acute Exacerbations of Asthma and COPD Management
2018-2019	Sam Brongiel	Chemotherapy patient education assessment and quality improvement in an academic medical center oncology outpatient clinic
2018-2019	Spencer Evans	<i>Enterobacteriaceae</i> Bloodstream Infections and Comparative Efficacy of Oral Step-Down Therapy
2018-2019	Cassidy Latusek	Guideline-Directed Medical Therapy in Long-Term Care Facility Patients with Heart Failure
2018-2019	Alison Miller	A Quality Assessment of Direct Oral Anticoagulants in an Academic Medical Center
2017-2018	Akosua Boateng	Evaluation of Pharmacist and Physician Managed Warfarin Therapy in an Academic Health System
2017-2018	Kailey Frenzel	Effect of Intravenous Albumin and Loop Diuretic Therapy on Duration of Mechanical Ventilation
2017-2018	Antonio Luo	Retrospective analysis of the safety of 4-factor prothrombin complex concentrate in warfarin and non-warfarin patients
2017-2018	Tiffany Ramos	Pharmaco-economic Impact on Antenatal Steroids in Late Preterm Infants
2017-2018	Jon Van Breusegen	Adherence to Institution Guidelines for the Treatment of Neonatal Abstinence Syndrome: a Retrospective Review
2017-2018	Megan Wachter	A Retrospective Analysis of Pneumococcal Pneumonia Outcomes in the Inpatient Setting

Year	Resident Name	Project Title
2016-2017	Lauren Bricker	Retrospective Analysis of Pirfenidone in Pulmonary Fibrosis Patients
2016-2017	Dallin Darais	Anticoagulation use in Patients with Atrial Fibrillation and End Stage Renal Disease Receiving Hemodialysis
2016-2017	Patrick Enriquez	Analysis of Midodrine to Decrease Norepinephrine Dosing Requirements in Intensive Care Unit Patients
2016-2017	Carmen Frerichs	Clinical Significance of Discordant Empiric Antimicrobial Selection for Inpatient Treatment of Pyelonephritis at Two CHI Health Omaha Metro Area Hospitals
2016-2017	Morgan Pusek	<i>Clostridium difficile</i> rates and antibiotic exposure among patients in a teaching hospital
2016-2017	Scott Shipley	Evaluation of the management of extended spectrum β -lactamases (ESBL) producing <i>Enterobacteriaceae</i> infections
