

Visitor Expectations Reference Guide

DO NOT visit if you have symptoms related to possible or known COVID-19. If you develop symptoms during your visit, please inform the nurse and end your visit.

Temperature greater than 99.9 degrees in the last 24 hours (fever/chills)

New loss of taste or smell

New cough

Congestion/runny nose (allergy symptoms)

New sore throat

Widespread muscle pain/body aches and new headache

Recent or current shortness of breath

New onset gastrointestinal symptoms, nausea, vomiting, or diarrhea

MASKING

- » Keep mask on appropriately at all times

SAFETY IN PATIENT ROOMS

- » Stay in the room where you are visiting, unless directed otherwise. Avoid unnecessary wandering in the hallways, or lingering in hallways or waiting rooms.
- » Follow guidance about social distancing and limits on the number of people in waiting rooms and other areas.

HAND WASHING

- » Always wash your hands with soap and water or use an alcohol-based hand sanitizer before and after touching your mask.

Visitors are required to follow these safety measures while in our facilities, including in patient rooms, at all times, or will be asked to leave.
