Definitions

Notice of Privacy Practices (The Notice) – a written notice in compliance with the requirements of Health Insurance Portability and Accountability Act (HIPAA), and the Health Information Technology for Economic and Clinical Health (HITECH) Act, enacted as part of the American Recovery and Reinvestment Act (ARRA) of 2009, made available from CHI Health to an individual or the individual’s personal representative at the first delivery of service, or at the individual’s next visit following a revision to the Notice, that describes the uses and disclosures of protected health information that may be made by CHI Health and the individual’s rights and CHI Health’s legal duties with respect to protected health information.

Protected Health Information (PHI) – individually identifiable health information that is transmitted or maintained in any form or medium, including electronic media. Protected health information does not include employment records held by CHI Health in its role as an employer.

CHI Health, an affiliate member of Catholic Health Initiatives (CHI), and other affiliated members of CHI participate in an Organized Health Care Arrangement (OHCA) in order to share health information to manage joint operational activities. A complete list of CHI affiliated members is available at www.catholichealthinitiatives.org by clicking on “Locations”. A paper copy is available upon request. The CHI OHCA may use and disclose your health information to provide treatment, payment, or health care operations for the affiliated members such as integrated information system management, health information exchange, financial and billing services, insurance, quality improvement, and risk management activities.

CHI Health (see www.chihealth.com for locations), including medical staff members and allied health professionals with clinical privileges, participate in an OHCA to manage their joint operating activities similar to the CHI OHCA, known as the CHI NE OHCA. The CHI NE OHCA may use and disclose your health information to provide treatment, payment, or health care operations for the affiliated members such as integrated information system management, health information exchange, financial and billing services, insurance, quality improvement, and risk management activities.

HOW WE MAY USE AND DISCLOSE YOUR HEALTH INFORMATION

For Treatment. We will use your health information to provide you with health care treatment and to coordinate or manage services with other health care providers, including third parties. We may disclose all or any portion of your health information to your attending physician, consulting physician(s), nurses, technicians, health profession students, or other facility or health care personnel who have a legitimate need for such information in order to take care of you. Different departments of the facility will share your health information in order to coordinate the health care services you need, such as prescriptions, lab work and X-rays. We may disclose your health information to family members or friends, guardians or personal representatives who are involved with your health care. We may also use and disclose your health

information to contact you for appointment reminders and to provide you with information about possible treatment options or alternatives and other health-related benefits and services. We also may disclose your health information to people outside the facility who may be involved in your health care after you leave the facility, such as other physicians involved in your care, specialty hospitals, skilled nursing care facilities, and other healthcare-related services. We may use and disclose your health information to prescription networks to obtain your prescription benefits from payers, to obtain your medication history from different health care providers in the community such as pharmacies, and to send your prescriptions electronically to your pharmacy.

For Payment. We will use and disclose your health information for activities that are necessary to receive payment for our services, such as determining insurance coverage, billing, payment and collection, claims management, and medical data processing. For example, we may tell your health plan about a treatment you are planning in order to receive approval or to determine whether your plan will pay for the proposed treatment. We may disclose your health information to other health care providers so they can receive payment for health care services that they provided to you, such as your personal physician, and other physicians involved in your health care such as an anesthesiologist, pathologist, radiologist, or emergency physician, and ambulance services. We may also give information to other third parties or individuals who are responsible for payment for your health care, such as the named insured under the health policy who will receive an explanation of benefits (EOB) for all beneficiaries who are covered under the insured's plan.

For Health Care Operations. We may use and disclose your health information for routine facility operations, such as business planning and development, quality review of services provided, internal auditing, accreditation, certification, licensing or credentialing activities (including the licensing or credentialing activities of health care professionals), medical research and education for staff and students, assessing your satisfaction with our services, and to other healthcare entities that have a relationship with you and need the information for operational purposes. We may use and disclose your health information to the external agencies responsible for oversight of health care activities such as the The Joint Commission, external quality assurance and peer review organizations, and credentialing organizations. We may also disclose health information to business associates we have contracted with to perform services for or on our behalf such as patient satisfaction survey organizations. We may also disclose your health information to medical device manufacturers or pharmaceutical companies in order for those companies to carry out their legal obligations to state and federal agencies.

CHI Health Information Exchange. CHI Health, as a member of the CHI OHCA, participates in the CHI Health Information Exchange (HIE). Your health information is maintained electronically and healthcare providers, employed, under contract, or otherwise associated with CHI Health, and the CHI OHCA members may access, use, and disclose your health information for treatment, payment, and healthcare operations.

Nebraska Health Information Initiative. CHI Health participates in the Nebraska Health Information Initiative ("NeHII"), a statewide internet-based health information exchange. As permitted by law, your health information will be shared with this exchange in order to provide faster access, better coordination of care and assist providers and public health officials in making more informed decisions. You may 'opt-out' and prevent searching of your health information available through NeHII, by calling 1-866-978-1799, or completing and submitting an 'Opt-Out' form to NeHII, by mail, fax or through their website at www.nehii.org.

Shared Electronic Health Record. CHI Health uses a shared electronic health record that allows our workforce and the workforce at other health care facilities and health care providers to store, update, access, and use your health information. We do this so it is easier for your health care providers to access your health information when you are seeking care and to better coordinate and improve the quality of your care. For example, if your personal doctor takes part in the shared electronic health record, then he/she can see when you have visited other facilities and providers that also participate in the shared electronic health record and the treatment you received.

If you receive care from more than one provider who enters information into the shared electronic health record, your health information will be combined into one record. Once information is combined, it cannot be separated in the future.

CHI Health participates in an OHCA with other health care providers who use the shared electronic health record. The participants in the shared electronic health record OHCA have agreed, as permitted by law, to share and update your health information among themselves for purposes of treatment, payment or health care operations. This arrangement

enables us to better address your health care needs. The organizations participating in the shared electronic health record OHCA are not in any way providing health care services mutually or on each other's behalf. They are separate health care providers and each is individually responsible for its own activities, including compliance with privacy laws, and all health care services it provides. For a list of the health care providers that participates in the shared electronic health record OHCA, please contact the manager of business development for Community Connect at (402) 717-2660.

Facility Directory. The facility directory is available so that your family, friends, and clergy can visit you and generally know how you are doing. We may include your name, location in the facility, your general condition (for example, fair or stable, and your religious affiliation in the facility directory. The directory information, except for your religious affiliation, may be released to people who ask for you by name. Your name and religious affiliation may be given to a member of the clergy such as a priest or rabbi, even if they don't ask for you by name. You must notify the personnel registering you. You may also tell your CHI Health caregiver verbally or in writing if you do not want us to release information about you in the facility directory. If you do not want information released in the facility directory, we cannot tell members of the public such as flower or other delivery services or friends and family that you are here or about your general condition.
