Grants awarded to Omaha nonprofits

### Community Health Needs Assessment Priorities

**Behavioral Health**

**Health-Related Social Needs**  
(Hunger, Housing & Workforce  
Development)

**Violence Prevention**

### Community Benefit Highlights\*\*

#### Behavioral Health

The Behavioral Health Peer Support program provides patients with emotional support and helps them reach their treatment/ recovery goals. Eighty two percent of patients enrolled in the Behavioral Health Peer Support program reported a significant positive impact.

#### Healthy Food Access

Nurture Omaha Farm Stands bring fresh, locally sourced produce to low-income seniors and families through seven farm stand locations. A total of 1,457 Senior Farmer's Market vouchers, valued at \$4,371, were matched with health system investment, resulting in \$16,321 worth of locally sourced fresh produce for eligible low-income seniors, women, infants, and children. This initiative significantly improved access to nutritious food for vulnerable populations while simultaneously supporting local farmers.

#### Violence Prevention

Continued support and expanded partnership with YouTurn, a violence intervention and prevention organization. YouTurn made over 875 community referrals and provided case management to 137 adolescents and young adults at high risk for violence. Plan to launch a hospital-based violence intervention program in 2025.
